# Paperless, digital businesscards

## **bizzerd is the best paperless business card:**

- The world's first paperless business card
- Practical, most comprehensive functionality
- Web-based and with an app: accessible to and received by everyone
- Proven technology: more than 5 years of further development based on customer experiences
- Fills the gap between paper business cards and LinkedIn
- Can be set up personally for: individual, department and company
- Language and location switch buttons
- Can be used all over the world
- Always have your business cards with you and always up to date
- Cost saving
- Sustainable

## **And as a bizzerd customer you support:**

The bizzerd.work foundation that wants to increase the perspective on suitable and sustainable work for young people with a work disability and a distance from the jobmarket.
